

		trans-synaptic signaling by nitric oxide, modulating synapti...
		positive regulation of anterograde axonal transport of mitoc...
		negative regulation of integrin biosynthetic process
		negative regulation of wound healing, spreading of epidermal...
		establishment of cell polarity
		negative regulation of stress fiber assembly
		phagocytosis, engulfment
		negative regulation of axon extension
		negative regulation of insulin secretion
		postsynaptic density organization
		RISC complex assembly
		ribosomal protein import into nucleus
		regulation of p38MAPK cascade
		inositol phosphate dephosphorylation
		positive regulation of vasoconstriction
		regulation of viral transcription
		positive regulation of NK T cell activation
		mesodermal cell migration
		cell migration involved in gastrulation
		global gene silencing by mRNA cleavage
