enrichR

neuron projection development (go:0031175)
synaptic vesicle transport (go:0048489)
anterograde axonal protein transport (go:0099641)
synaptic signaling (go:0099536)
neural tube closure (go:0001843)
primary neural tube formation (go:0014020)
regulation of neuron projection development (go:0010975)
negative regulation of neuron apoptotic process (go:0043524)
central nervous system development (go:0007417)
motor neuron axon guidance (go:0008045)
negative regulation of oxidative stress−induced neuron death (go:1903204)
positive regulation of oligodendrocyte differentiation (go:0048714)
regulation of oxidative stress−induced neuron intrinsic apoptotic signaling pathway (go:1903376)
noradrenergic neuron differentiation (go:0003357)
neuron projection extension involved in neuron projection guidance (go:1902284)
axon extension involved in axon guidance (go:0048846)
neuron migration (go:0001764)
positive regulation of neuron differentiation (go:0045666)
nervous system development (go:0007399)
generation of neurons (go:0048699)
autonomic nervous system development (go:0048483)
sympathetic nervous system development (go:0048485)
